

It's a Mid-winter, Mid-week, Mid-day, Birthday Recognition of the Late Don Hayter at Doyles Pub!

It's a "Natter 'N Noggin" birthday recognition of the late Don Hayter, the last Chief Design Engineer at MG.

Don Hayter had a small hand in the design of the MGA Twin Cam car, the Riley 2.6 (built briefly alongside MGs in the Abingdon factory), and was the principal designer of the MGB and the MGB GT, among many other things.

We'll meet in "The Snug" at Doyles Public House, 208 St. Helen's Avenue, Tacoma, WA 98402 from 12:00 noon to 2:00 PM, January 24th, 2025.

www.doylespublichouse.com

Join us for a pub-grub lunch, a soft or spirited libation, and a brief presentation on the life, accomplishments and achievements of Don Hayter. The main feature of the event is ***enjoyable social engagement with fellow MG enthusiasts!***

No RSVP for this event is required, but if you would like to confirm to help in a 'head count' that I could forward to Doyle's staff, you may reply by message

or email to Rob Blubaugh at britwheelsfan@gmail.com or by phone (219) 863-0331. (If calling, please leave a voice message as I do not answer unknown calls.)

A reply confirming your intent to attend might also be useful if a weather-related cancellation would be necessary. It is, after all, a Mid-winter event.

Wishing you 'All-the-best,' for the full duration of the 'new year,' and as always, "**Safety Fast!**"
